Module 2 – Update Set Creation

Purpose

Create a dedicated ServiceNow Local Update Set so the project configuration can be tracked and exported.

Navigation

- Go to All menus and search for Update set.
- Under System Update Sets, select Local Update Sets.
- Click New.
- Name: Project Update Set.
- State: In progress.
- Application: Global.
- Save the form.
- Under Related Links, click Make This My Current Set.
- The created update set will appear as the Current Set.

Project basis: uploaded ServiceNow project document.
