

AUTO TICKET CLASSIFICATION USING FLOW DESIGNER

Module 5 – Flow Designer & Trigger

Purpose

Create a no-code Flow Designer automation that starts when a new incident record is created.

Flow Creation

- Go to All menus and search for Flow Designer.
- Under Process Automation, open Flow Designer.
- Click New and select Flow.
- Name: Auto Classify School IT Tickets.
- Application: Global.
- Click Build Flow.
- **Trigger:** Record Created.
- **Table:** Incident Workflow.
- **Condition:** Category is Empty.
- Click Done and use Flow Logic for the classification branches.

Project basis: uploaded ServiceNow project document.
